

A Guide to Speech Therapy - A Selection of Classic Articles on the Psychology and Rehabilitation of Speech

This book contains classic material dating back to the 1900s and before. The content has been carefully selected for its interest and relevance to a modern audience. Carefully selecting the best articles from our collection we have compiled a series of historical and informative publications on the subject of psychology. The titles in this range include The Psychology of Nervous Disorders Paranoia and Psychoanalysis The Psychological Treatment of Children and many more. Each publication has been professionally curated and includes all details on the original source material. This particular instalment, A Guide to Speech Therapy contains information on the psychology and rehabilitation of speech. It is intended to illustrate aspects of speech therapy and serves as a guide for anyone wishing to obtain a general knowledge of the subject and understand the field in its historical context. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
