

Footprint of a False God (The Noor Trilogy Book 3)

After the first war in millennia, a fragile peace has been brokered in Noor. Trapped on the Sacred Isle, Caryadgh seeks a way to bring her army across the raging waters of the Trapiche Emeral, while discontent festers among the Tenadadgh. Her ruthless character, now well known, a dread prospect hovers over all. If ancient arts lie in the archives of the now defunct Order of the Guardians, will she find them? And learning how to use them, what will she do with such knowledge, should she find a way to return to the mainland? The eyes of every Kingdom State keep a close watch, and while making preparations for such an event, squabble and fight amongst themselves. Lessadgh has fared no better. A new regime has taken control. Useless mouths disposed of, the remaining population labour for the elite. Nothing known of each others troubles, the people of both worlds are unaware...devastation looms.
