

The Cypher Wheel: Custodian Novel, Book 3

Faen was worried about his charge. Faedra had locked herself away in the cottage on a self-imposed quarantine, for six months. She was having trouble controlling her newly acquired powers, and was terrified of hurting someone. But, enough was enough. When Etyran obtained some tickets for a treasure hunt, her father and friends persuaded her that it was time to get out of the house and back into the real world. It was only a treasure hunt, what could possibly go wrong?
